WHAT CAN TITAN Rail, Inc. DO FOR YOU?

ROAD

SWITCHER

COMMUTER

POWER

TITAN Rail, Inc. provides motive power leasing, sales and services to the freight, industrial and commuter rail markets specializing in high-quality EMD road, switcher and passenger locomotives. We understand the complexities of rail operations and are ready to exceed your expectations as a single-source provider for all your motive power needs.

LOCOMOTIVE LEASING

TITAN Rail has a large fleet of high-quality EMD road, switcher and commuter locomotives. TITAN offers competitive lease rates and terms and can structure a lease package to meet any need. Additionally, our comprehensive "No Bull" qualification and repair program ensures that the equipment will arrive on-site ready for years of reliable service.

SALE LEASEBACK PROGRAMS

TITAN Rail can provide sale leaseback programs that capitalize on the real but hidden value of customer owned rail equipment. These cash-out transactions allow our customers to reach certain financial goals without increasing debt or impairing operations. TITAN's sale-leaseback programs can be structured to include motive power rebuilding and modernization – with TITAN picking up the cost and managing the entire process.

LOCOMOTIVE SALES

With TITAN's fleet of quality locomotives and our ability to locate, evaluate and add value to other available units, TITAN is the intelligent choice when looking to purchase motive power. TITAN can even structure a lease with purchase option – preserving our customer's valuable capital and balance sheet strength.

LOCOMOTIVE REBUILDING & MODERNIZATION PROGRAMS

TITAN has the experience and expertise to handle the most complex rebuilding and modernization programs – utilizing best of breed sourcing and project management. From complete rebuilds to the application of the latest in motive power technology, TITAN and our partners bring substantial value to our customers. TITAN even has proprietary solutions that are available nowhere else – including a hybrid HEP system that stores and utilizes the energy created during dynamic braking.

ON-SITE MAINTENANCE PROGRAMS

TITAN can structure on-site maintenance programs that cover everything from periodic maintenance to catastrophic repairs. These programs allow our customers to fully budget their maintenance expense and place the important responsibility of motive power maintenance in our expert hands. These turn-key maintenance programs can cover our leased units or customer owned units and are ideal for industrial operators and shortlines.

LOCOMOTIVE COMPONENTS

TITAN has an extensive inventory of quality locomotive components. Our inventory, competitive prices, excellent service and quick shipping makes TITAN a "first-call" supplier to many.

SURPLUS EQUIPMENT ACQUISITIONS

TITAN is an active buyer of surplus rail equipment of all types – offering competitive bids and quick, hassle-free closing.

"TITAN Rail is ready to exceed your expectations as a single-source provider for all your motive power needs."
